Remote Work and Hybrid Work Policy

Policy ID: IT-002 **Version:** 1.4 **Effective Date:** 1 October 2026

Policy Owner: People Operations

1. Purpose

This policy establishes requirements for employees who work remotely or under a hybrid arrangement.

2. Eligibility

Remote or hybrid work may be approved for roles that can be performed effectively outside the office. Eligibility does not create an automatic right to work remotely.

3. Work Location and Availability

• Employees must work from an approved and reasonably secure location.

• Employees must remain reachable during agreed working hours through approved communication tools.

• Managers may require employees to attend important meetings, training, or team events in person.

• Any temporary change to the approved work location should be communicated to the manager.

4. Equipment and Security

• Company laptops and accounts must be protected with strong passwords and multi-factor authentication.

• Confidential information must not be displayed or discussed where unauthorized people can access it.

• Employees should use company-approved VPN or secure network controls when required.

• Lost or stolen company equipment must be reported to IT immediately.

5. Performance Expectations

Remote employees are evaluated using the same performance standards as office-based employees. Managers may review deliverables, response times, attendance at required meetings, and work quality.

6. Remote Work Exceptions

The company may temporarily suspend remote work for operational, security, client, or compliance reasons.

7. Frequently Asked Questions

• Can I work remotely from another country? Not without prior written approval because tax, legal, security, and employment rules may apply.

• Can I use public Wi-Fi? Only when appropriate security controls are active and confidential work can be protected.

• Is hybrid work permanent? No. Arrangements may be reviewed based on business requirements.

Document status: Internal reference document for RAG testing. This synthetic policy is created for demonstration and does not represent the policy of a real organization.
